KANCHAN

Furkids By Nagham Badawi

Meet Kanchan

- Male, born 1 December 2023
- Large orange & white domestic shorthair
- Playful, energetic & full of personality
- Loves toys, running around & making everyone laugh
- Good with cats, dogs & children
- Fully recovered after an incredible rescue journey
- Neutered (3 Jun 2025)
- Microchipped & dewormed
- Tricat vaccinated (11 Apr 2025)
- Rabies vaccinated (24 Aug 2025)

His Story:

Kanchan was born in a street market, where a kind worker cared for him and other cats, with one of our volunteers regularly bringing them food.

One night, while the volunteer was returning from work, she found Kanchan lying among the plants on the roadside. She rushed him to the vet, where it turned out he had a spinal fracture and a hip dislocation, and couldn't urinate or defecate without help.

After several days under observation, vets suggested euthanasia, saying he wouldn't survive — but our volunteer refused to give up. She took him to several clinics for second opinions until he finally stayed at Vet4Pet, where he received months of intensive care and physiotherapy. The result was a miracle — Kanchan recovered completely, can now use the litter box on his own, and walks perfectly again!

Personality: Kanchan is affectionate, clean, and very gentle. He loves playing, jumping, and enjoys belly rubs. Great with kids, dogs, and cats — a perfect fit for multi-pet families!

Looking for:

A warm, loving home to make up for everything he's been through. He currently lives with other cats but dreams of a forever family to give him the love and security he truly deserves

Meet Peel

Peel is a gentle, sensitive soul who is still learning to feel safe around people. Like some of our more timid cats, he prefers to take things slowly and will need a patient family willing to give him the time and understanding he deserves. While he may not be the first to seek attention, every small step forward is a sign of growing confidence. With kindness, routine, and plenty of reassurance, we believe Peel will continue to blossom.

KITTY

Furkids By Nagham Badawi

Meet Kitty

Kitty is one of the most inspiring little cats you'll ever meet. Although she is blind, she doesn't let that stop her from enjoying life. She's playful, determined, and full of spirit, approaching every day with incredible courage and resilience. Kitty loves to explore, play, and be involved in whatever is happening around her. She has adapted amazingly well to life without sight and continues to show just how capable she is. Her strength and positive attitude are truly remarkable. Unfortunately, because she can't see, Kitty sometimes accidentally bumps into the other cats, which can lead to her being picked on. For this reason, we believe she would thrive in a calmer home environment where she can receive the love, patience, and security she deserves without having to compete for space or attention.

About Kitty:

- Female, born 20 November 2025
- Small tortoiseshell domestic shorthair
 - Blind, but confident and full of life
- Playful, curious, and incredibly resilient
 - Good with children, cats, and dogs
